

# Festive FUN

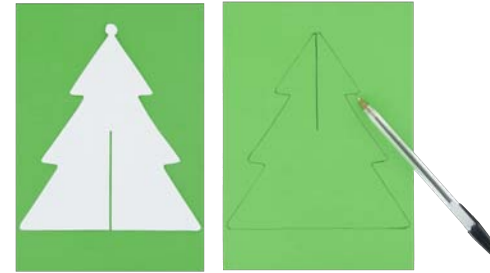

## Foam Christmas Tree Instructions

### You Will Need...

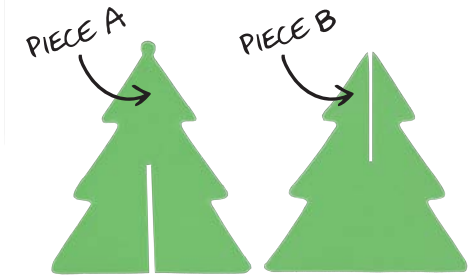

- Foam Sheets
- Foam Star Shapes
- Assorted Pom Poms
- Glue

### You Will Also Need...

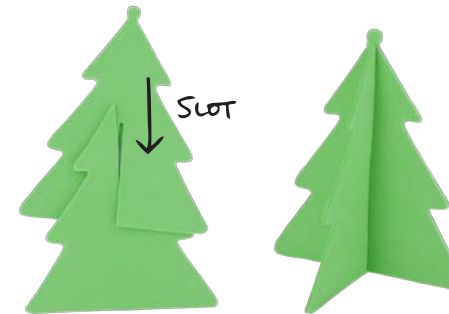

- Micador Scissors
- Pencil or pen

**Step 1:** Trace the Christmas tree templates onto the foam sheet/s.

**Step 2:** Cut around the outlines.

**Step 3:** Slot tree piece A over piece B. Your tree should be able to stand upright on its own now. Add a bit of glue along where the pieces join to secure the shape.

**Step 4:** Take the foam stars included and glue them onto each side of the tip of piece A. Trace the template onto a yellow foam sheet and cut them out, if you don't have pre-cut foam stars.

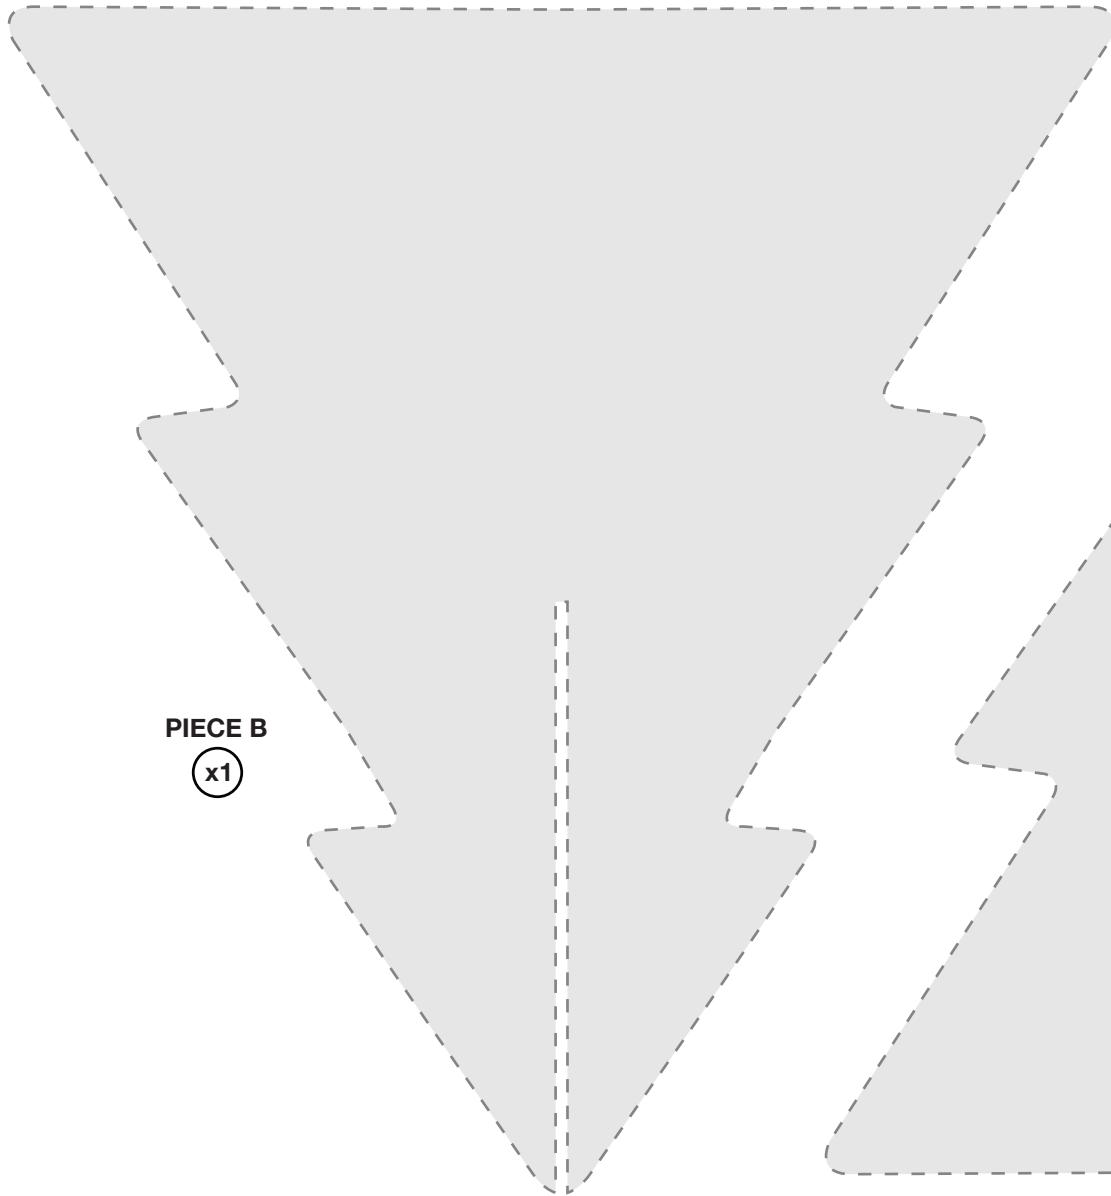

**Step 5:** Glue pom poms on each side of the tree to decorate!

TEMPLATES INCLUDED!
