

Micador Easy Wash Finger Paint

1. Product Identifier & Identity for the Chemical

Product name	Micador Easy Wash Finger Paint Blue, Red, Green, Yellow
Other name	
Product code	PKF04
Recommended use	Art and Craft
Restrictions on use	None known
Company name	Micador Australia Pty Ltd
ABN	98 004 509 880
Address	4/132 Bangholme Road, Dandenong South, VIC 3175
Emergency phone	If you need emergency advice about a poisoning, please call the Poisons Information Centre on 13-11-26, or dial 000 for emergency assistance. New Zealand 0800 764 766
Phone	03 8788 1800 (Monday – Friday from 9am – 5pm)
Fax	03 8788 1810

2. Hazard Identification

Classification of the hazardous chemical

Classified as non-hazardous according to the criteria of the Globally Harmonised System of Classification and Labelling of Chemicals (GHS).
Classified non-dangerous accordingly to the criteria of the Dangerous Goods under the Dangerous Goods Act (DGA).

Label Elements, including precautionary statements

None allocated as non-hazardous

Other Hazards which do not result in classification

Inhalation	Inhalation of vapor or mist can cause irritation to nose and throat
Skin	Prolonged or repeated skin contact can cause slight irritation
Eye	Direct contact with material can cause slight irritation to eyes

3. Composition/Information on Ingredients

	Component	CAS NO#
Base Material	Distilled water	7732-18-5
	KAOLIN	1332-58-7 / 13463-67-7
	Silicone dioxide	7631-86-9
	Dowicil 75	4080-31-3
	Denatonium benzoate	3734-33-6
Red	Cosmenyl Carmine FB01	6410-41-9
	Colanyl Red FGR 130-CN	6535-46-2
Green	Cosmenyl Green GG	1328-53-6
	Cosmenyl Yellow 10g	6486-23-3
Blue	Cosmenyl Blue A2R	147-14-8
	5008 ultramarine	1328-53-6
	R-902 + titanium dioxide	57455-37-5
Yellow	Cosmenyl Yellow 10g	6486-23-3
	Cosmenyl Carmine FB01	6410-41-9
	Hostafine Yellow GR	5102-83-0

4. First Aid Measures

For advice, contact a Poisons Information Centre, Phone Australia 13 1126; New Zealand 0800 764 766, or a doctor at once.

Inhalation	Move to fresh air
Skin	Wash with water and soap as a precaution, If skin irritation persists, call a physician
Eye	Rinse with plenty of water. If eye irritation persists, consult a specialist
Ingestion	Drink 1 or 2 glasses of water. Consult a physician if necessary. Never give anything by mouth to an unconscious person

5. Fire Fighting Measures

Suitable extinguishing media

Use extinguishing media appropriate for surrounding fire.

Specific hazards arising from the chemical

Material can splatter above 100C / 212F. Dried product can cause burns.

Special protective equipment and precautions for fire fighters

Wear self-contained breathing apparatus and protective suit.

Thermal decomposition Thermal decomposition may yield acrylic monomers.

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Use personal protective equipment. Keep people away from and upwind of spill / leak.
Material can create slippery conditions

Environment precautions

Keep spills and cleaning runoff out of municipal sewers and open bodies of water.

Methods and materials for containment and cleaning up

Contain spills immediately with inert materials (eg: sand, earth)
Transfer liquids and solid diking material to separate suitable containers for recovery or disposal

7. Handling and Storage

Precautions for safe handling

Avoid contact with eyes, skin and clothing. Wash thoroughly after handling. Keep container tightly closed. Do not breathe vapors, mist or gas.

Conditions for safe storage, including any incompatibilities

Storage temperature: 1 – 49C

Further information on storage condition: Do not freeze the product; its stability may be affected.

Other data: Monomer vapors can be evolved when material is heated during processing operations

STIR WELL BEFORE USE

8. Exposure Controls/Personal Protection

Control parameters – exposure standards, biological monitoring

None known

Appropriate engineering control

Use only in area provided with appropriate exhaust ventilation.

Personal protective equipment (PPE)

Eye protection: safety glasses with side shields. Eye protection worn must be compatible with respiratory protection system employed.

Hand protection: Neoprene gloves may provide protection against permeation. (Gloves of other chemically resistant materials may not provide adequate protection)

Respiratory protection: Use certified respiratory protection equipment meeting EU requirements (89/656/EEC), or equivalent, when respiratory risks cannot be avoided or sufficiently limited by technical means of collective protection or by measures, methods or procedures of work organization.

9. Physical and Chemical Properties

Appearance	Ointment
Odour	Not known
Odour threshold	Not known
pH	6.0 – 9.0
Melting point/freezing point	Not known
Boiling point and boiling range	Not known
Flash point	Not combustible
Evaporation rate	Not known
Flammability	Not known
Upper/lower flammability or explosive limits	Not known
Vapour pressure	Not known
Vapour density	Not known
Relative density	Not Known
Solubility (ies)	Dilutable
Partition coefficient: n-octanol/water	Not known
Auto-ignition temperature	Not known
Decomposition temperature	Not known
Viscosity	Not known
Specific heat value	Not known
Particle size	Not known
Volatile organic compounds content	
% volatile	Not known
Saturated vapour concentration	Not known
Release of invisible flammable vapours and gases	

Additional parameters

Shape and aspect ratio	Not known
Crystallinity	Not known
Dustiness	Not known
Surface area	Not known
Degree of aggregation or agglomeration	Not known
Ionisation (redox potential)	Not known
Biodurability or biopersistence	Not known

10. Stability and reactivity

Reactivity	Stable
Chemical stability	Not known
Conditions to avoid	Not known
Incompatible materials and possible hazardous reactions	No known materials
Hazardous decomposition products	Not known

11. Toxicological information

Potential adverse health effects and symptoms associated with exposure to the material

Acute health effect

Swallowed	None known
Eyes	None known
Skin	None known
Inhaled	None known
Sensitization:	None known

12. Ecological information

Biodegradation	Not known
Fish Toxicity	Not known
Ecotoxicology	Not known
Persistence and degradability	Not known
Bioaccumulative potential	Not known
Mobility in soil	Not known
Other adverse effects	Not known

Do not pour waste into water source

13. Disposal considerations

Safe handling and disposal methods

Coagulate the emulsion by the stepwise addition of ferric chloride and lime. Remove the clear supernatant and flush to a chemical sewer. For disposal, incinerate or landfill at a permitted facility in accordance with local, state and federal regulations

Disposal of any contaminated packaging

Non known

Environmental regulations

CAUTION: Keep spills and cleaning runoff out of municipal sewers and open bodies of water.

14. Transport information

UN number	Not known
Proper shipping name	Not known
Transport hazard class(es)	Not known
Packing group	Not known
Environmental hazard	Not known
Special precautions during transport	Not known
Hazchem code	Not known

Classification for Road and Rail and Sea (IMO-IMDG) and Air (IATA/ICAO) transport:

Not regulated (Not dangerous for transport)

Transportation classifications may vary by container volume and may be influenced by regional or country variations in regulations.

15. Regulatory information

Safety, health environmental regulations specific for the product in question

Not classified as "dangerous"

No labeling is required in accordance with EC directives

Poisons schedule number

Not known

16. Other information

Date of preparation or review	10 June 2015
Key abbreviation or acronyms used	Not applicable
Revision number	Not applicable
Name of version that this document supersedes	Not applicable
