1: Outline

Use a pencil to draw your hummingbird and outline the shadow areas. You can trace the PDF download or draw freehand depending on your confidence and skill level.

2: Paint

Using black acrylic paint, paint the outline and shadows.

3: Background

Paint the background in a bright flat colour.

4: Add colour

Use your fluoro acrylics to paint the bright plumage.

Allow the fluoro paint to dry. Use a permanent marker or fine brush to add details on top of the paint.
